Handles

Plastic	Metal with plastic grip
 A close-up photograph of a white plastic bucket handle, showing the curved rim and the integrated plastic grip structure.	 A photograph of a white bucket with a metal wire handle. A black plastic grip is attached to the handle, providing a secure grip.

Note: a no handle variant can also be ordered.

Colours

Buckets can be:

- white,
- transparent,
- coloured (17 different colours) or
- in other custom colours (subject to MOQ).

Decoration

Buckets can be decorated with an IML label (subject to MOQ).

Other information

Buckets are made of polypropylene (PP) and are certified for use in food or chemical industry.

Buckets can be produced from recyclable material.

Manufactured in the EU.
